

Neighborhood Construction Notification

Dear Neighbor:

Elizabethtown Gas is committed to bringing safe, reliable, affordable natural gas to our customers and to improving the natural gas pipeline system in our communities. **We wanted to make you aware that, in the coming weeks, a qualified contractor representing Elizabethtown Gas will replace and upgrade the natural gas system in your area.**

Customers within the project area have already received notification and will receive a second call and/or door hanger prior to the start of the meter relocation work on their street. Although work may not occur directly on your street, we are informing you because **work in your surrounding community may include traffic impacts, limited street parking, loud noise and the presence of heavy equipment.** Construction schedules with specific dates for the work in your community are not yet available.

A fact sheet is included with this letter to provide more information about the project.

For more information about the pipeline replacement program, please visit elizabethtowngas.com/neighborhood. If you have additional questions, please call our Project Hotline at **866.767.5558** or email us at etgprojects@sjindustries.com. All inquiries will be returned within one business day.

If you are not currently an Elizabethtown Gas customer, now is the time to consider making the switch to natural gas for your home or business. Determine your potential savings with our home heating savings calculator at elizabethtowngas.com/switch or call **844.886.8488** to speak with a representative who can help put you on the path to energy savings.

Sincerely,

Elizabethtown Gas

PLEASE RETAIN THIS LETTER FOR FUTURE REFERENCE AND CONTACT INFORMATION.

Pipeline Replacement Project

Project map, affected streets highlighted in red (above)

N. LINCOLN AVENUE

Elizabethtown Gas is improving our natural gas pipeline system that provides safe and reliable natural gas to more than 300,000 customers across northern New Jersey.

The work in this neighborhood is part of the company's ongoing pipeline replacement program to replace aging natural gas mains and services with new, durable plastic. In many cases, gas meters will be relocated from the inside of homes and businesses to the outside. Relocating the gas meter outside provides enhanced safety and reliability, easier access to gas meters in the event of an emergency or natural disaster, and additional convenience in meter maintenance without the need for customers to be present.

Our Commitment

We take great care in implementing construction practices that limit disturbances to homeowners and businesses and we understand your time is valuable. We appreciate your patience and thank you for allowing us to provide you with safe and reliable natural gas service.

City
Washington

County
Warren

Streets Directly Affected

Carlton Avenue	State Street
Madison Street	W. Church Street
N. Lincoln Avenue	W. Johnston Street
N. Wandling Avenue	W. Stewart Street
New Street	W. Warren Street

Project Scope

Replacing and upgrading natural gas infrastructure including:

- Replacing aging gas mains with new, durable plastic pipe
- Relocating gas meters from inside homes and businesses to outside, and replacing service lines from the gas main in the street to the building

Not Currently an Elizabethtown Gas Customer?

Now is the time to consider making the switch to natural gas for your home or business!
